

AAYUSH JAIN

Store Development Program Manager | Multi-Site Capital Programs | Retail & Operations

Vancouver, BC • (604) 720-7740 • jain.aayush@outlook.com • [linkedin.com/in/iaayushjain](https://www.linkedin.com/in/iaayushjain) • MBA, UBC Sauder

PROFILE

Program manager with 8+ years delivering complex, multi-site capital and rollout programs end-to-end, from business case and capital approval through permitting, vendor management, and installation. Founder-built operator who pairs an MBA from UBC Sauder with deep stakeholder coordination, regulatory compliance, and data-driven program control.

CORE COMPETENCIES

Multi-Site Program Management • Capital Project Delivery (\$1M–\$3M) • Business Case & CapEx Approval • Vendor & Contractor Management • Permitting & Regulatory Compliance (Municipal / OQLF) • Stakeholder Alignment • Budget & Schedule Control • Risk Management • MS Project, Smartsheet, Power BI, SQL, Python, Process Automation

PROFESSIONAL EXPERIENCE

Project Development Specialist | Program Manager

Nov 2023 – Present

Best Buy Canada — Vancouver, BC

- **Portfolio Leadership:** Direct 15–17 concurrent national retail programs across 300+ stores; 100% on-time delivery record.
- **Capital Program Delivery:** Direct a \$1M signage portfolio across 72 Quebec stores to OQLF (Bill 96) compliance, owning the lifecycle from business case through landlord negotiation, vendor permitting, and install. Batched outreach by multi-site REIT to compress landlord approval cycles; \$1M envelope holding with zero overruns.
- **Multi-Vendor Program Execution:** Run 10 concurrent vendor-partner display programs across 24 stores inside a \$3M reflow, owning the pipeline from rendering and artwork approval through store-list allocation, production, shipping, and 3PL install scheduling; 100% on-time launch readiness.
- **Construction & CapEx Sequencing:** Owned a \$300K CapEx loss-prevention program end-to-end across 24 stores; built the business case on line-item vendor quotes and sequenced prep work across 4+ contractors ahead of primary install. Delivered on schedule, zero overruns, no further break-ins reported post-install.
- **Program Control & Analytics:** Automated national site-survey and audit consolidation using VBA and LLM-based document parsing, cutting manual cross-referencing time ~95%; the resulting Excel reporting serves as the source of truth for weekly cross-functional stakeholder reviews.

Project Coordinator

Oct 2022 – May 2023

GoCo (now TELUS) — Toronto, ON

- **Stakeholder Alignment:** Cut project cycle time by 30 days via a structured weekly action cadence, reducing escalations and aligning 700+ accounts to project objectives.
- **Process Optimization:** Standardized delivery documentation and training, reducing error rates 30% and absorbing a 20% increase in monthly project volume.

Founder & Project Manager

Dec 2015 – Oct 2020

Zanskar Inc. — India

- **Portfolio Scale:** Scaled an operating portfolio to 35 concurrent engagements at 90% client renewals, owning end-to-end timelines, budgets, and multi-year stakeholder relationships.
- **Vendor & Risk Management:** Sustained a 95% on-time, on-budget delivery rate through pre-launch risk assessments and rigorous workback reviews.
- **Contractor Framework:** Designed a scorecard-based contractor evaluation system that halved selection time, improved quality outcomes 40%, and reduced average project cost by ~\$25K per engagement.

EDUCATION & CREDENTIALS

MBA, Sauder School of Business, University of British Columbia

B.Tech, Computer Science, Chitkara University, India
