Aayush Jain

Retail PM | UBC MBA

Vancouver, British Columbia, Canada

Summary

Hi, I'm Aayush I work at the intersection of retail project management, store design, and product strategy. At Best Buy Canada, I manage vendor display, fixture rollouts; making sure design intent survives the jump from plans to store execution. Outside of retail, I build small ventures at the edge of AI and SMB tools from - workflow automations to cross-border commerce experiments with my woolen accessories brand, Thoughtfit. I thrive in environments where organization, execution, and design discipline matter as much as big ideas. Let's connect if you're working on retail ops, execution tooling, or AI for SMBs.
